

KEPBERM™

Secondary Containment Systems

Economical • Portable • Reusable

KepBerm systems are compact and lightweight with low storage requirements. The system is fully operational within minutes.

Each system includes:

- 1) Heavy-duty Liner
- 2) Four (4) Inflatable Pillows
- 3) Optional Ground Cloth
- 4) Optional Protective Bag

The system is set-up on flat ground and the pillows are inflated with a low-pressure pump -- the system retains maximum capacity for weeks even when left unattended.

KepBerm systems are used for outdoor storage of hazardous chemicals ---

--- as an oil water separator ---

--- and containment of water and non-hazardous liquids.

<u>Model No.</u>	<u>Dimensions L x W x H</u>	<u>Capacity US Gallons</u>
KB6000	24' x 24' x 17"	6,000
