

PocketBoom and Storage Locker

PocketBoom Features:

- EFFECTIVELY CONTAINS OIL SPILLS IN CALM OR NON-TURBULENT WATERS
- ULTRA LIGHTWEIGHT AND EASY TO USE
- CAN BE USED AS A SWEEP BOOM TO CORRAL SURFACE DEBRIS
- RF WELDED SEAMS, GALVANIZED CHAIN BALLAST FOR DURABILITY
- STORES COMPACTLY IN ITS OWN CASE FOR EMERGENCIES

PocketBoom Kit: ONE 100 FT SECTION AND ONE 50 FT SECTION COMPLETE WITH PORTABLE PROTECTIVE STORAGE LOCKER

The lightweight, portable SeaCurtain PocketBoom System is constructed of light-duty Keptex™ VCR1001Y polyvinyl coated polyester fabric, polyethylene foam flotation, and a galvanized chain ballast-tension member. The Boom has 1.5" flotation diameter and 4" skirt in standard section lengths of 100 ft or in a PocketBoom Kit containing one 100 ft section and one 50 ft section in a special container. The buoyancy is 0.8 lbs/ft and the weight is 0.25 lbs/ft for a ratio of over 3:1.
